- The course home page is NOT on Avenue to Learn. It is right here!

Course Description

- **Course Title:** Probability and Statistics for Engineering
- **Class Times and Locations:** Check [Mosaic](#).

Instructor Information

- **Lecture Style:** Lectures will be in-person. Attendance is expected.

Instructor Information C01: Sharon King-Yu

- **Email:** sharonmc@mcmaster.ca
- **Office Location:** HH208
- **Office Hours:**
Monday 1:40pm - 2:30pm
Tuesday 10:40am - 11:30am
Wednesday 11:40am - 12:30pm

Instructor Information C02: Katherine Davies

- **Email:** daviek5@mcmaster.ca
- **Office Location:** HH205
- **Office Hours:**
Tuesday 1:30-2:30pm
Wednesday 2:00-3:00pm
Friday 9:30-10:30am

Textbook

- **Required:**
- *Applied Statistics and Probability for Engineers, 7th Edition* by Montgomery and Runger, Wiley. (Online edition available through the bookstore, or wherever you can find it).

[more problems chp11](#)

[more problems chp13](#)

[E Book information](#)

If you have an e-version of the book, [click here](#).

Material Covered

- **Optional:**
 - 1) Student Solutions Manual
 - 2) "40 Puzzles and Problems in Probability and Mathematical Statistics" - Wolfgang Schwarz (available for free download on [McMaster SpringerLink](#))
- All sections covered in the [suggested problems](#)
- **Major Topics:** probability, random variables and probability distributions, joint probability distributions, data description, point and interval estimation, hypothesis testing, linear regression, analysis of variance
- **Stats 3J04** students will also cover the following topics in the tutorials (in addition to all of the above material), and will have an extra assignment based on these topics: Bayes' Theorem, multinomial distribution, general functions of random variables, moment generating functions, method of moments, maximum likelihood estimation

Assignment Information

- There will be 7 online assignments, plus an additional assignment for 3J04 students only.

Test Information

- **All tests will be written in person, with no exceptions, unless otherwise directed by the university.**
- Please check the test dates and locations under "Test 1 Information" and "Test 2 Information". The Final Exam will be scheduled by the registrar's office.
- Only the McMaster standard calculator Casio fx-991 is allowed on the tests and exam.

Course Evaluation

Assignments - 15%
 2 Tests - 20% each
 Final Exam - 45%

(Subject to change)

- At the end of the course the grades may be adjusted, but this can only increase your grade and will be done uniformly. We will use the grade equivalence chart published in the Undergraduate Calendar to convert between percentages and letter grades.

- The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check their McMaster email and course websites weekly during the term and to note any changes.

Missed Work Policy

- If you are absent from the university for a minor medical reason, lasting fewer than 3 days, you may report your absence, once per term, without documentation, using the [McMaster Student Absence Form](#). Absences for a longer duration or for other reasons must be reported to your Faculty/Program office, with documentation, and relief from term work may not necessarily be granted. When using the MSAF, report your absence to [Dr. King-Yu](#). Please note that the MSAF may not be used for term work worth 25% or more, nor can it be used for the final examination. For more information look [here](#).
- If your MSAF form was received then the word "note" will appear in place of your mark on the marks page. This will show up within one week after you filled out the MSAF form. If you don't see the word "note" in place of your mark for the missed work one week after filling out the MSAF form, then send an email to [Dr. King-Yu](#). If you do see the word "note" in place of your mark, then no follow-up is required.
- The percentage for a missed test will be added to your final exam.
- The percentage for a missed assignment will be distributed among your remaining assignments.

Academic Dishonesty

- You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. **It is your responsibility to understand what constitutes academic dishonesty.**
- Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: Grade of F assigned for academic dishonesty), and/or suspension or expulsion from the university. For information on the various types of academic

dishonesty please refer to the **Academic Integrity Policy**, located [HERE](#)

- The following illustrates only three forms of academic dishonesty:
 1. Plagiarism, e.g. the submission of work that is not one's own or for which other credit has been obtained.
 2. Improper collaboration in group work.
 3. Copying or using unauthorized aids in tests and examinations.

AUTHENTICITY / PLAGIARISM DETECTION

- Some courses may use a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. For courses using such software, students will be expected to submit their work electronically either directly to Turnitin.com or via an online learning platform (e.g. A2L, etc.) using plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty.
- Students who do not wish their work to be submitted through the plagiarism detection software must inform the Instructor before the assignment is due. No penalty will be assigned to a student who does not submit work to the plagiarism detection software. All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, other software, etc.). For more details about McMaster's use of [Turnitin.com](#) please go to www.mcmaster.ca/academicintegrity.

COURSES WITH AN ON-LINE ELEMENT

- Some courses may use on-line elements (e.g. e-mail, Avenue to Learn (A2L), LearnLink, web pages, capa, Moodle, ThinkingCap, etc.). Students should be aware that, when they access the electronic components of a course using these elements, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in a course that uses on-line elements will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course instructor.
- Some courses may use online proctoring software for tests and exams. This software may require students to turn on their video camera, present identification, monitor and record their computer activities, and/or lock/restrict their browser or other applications/software during tests or exams. This software may be required to be installed before the test/exam begins.

- As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the [Code of Student Rights & Responsibilities](#) (the Code). All students share the responsibility of maintaining a positive environment for the academic and personal growth of all McMaster community members, **whether in person or online**.
- It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students access to these platforms.

ACADEMIC ACCOMMODATION OF STUDENTS WITH DISABILITIES

Students with disabilities who require academic accommodation must contact Student Accessibility Services (SAS) at 905-525-9140 ext. 28652 or sas@mcmaster.ca to make arrangements with a Program Coordinator. For further information, consult McMaster University's [Academic Accommodation of Students with Disabilities policy](#).

ACADEMIC ACCOMMODATION FOR RELIGIOUS, INDIGENOUS OR SPIRITUAL OBSERVANCES (RISO)

- Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the [RISO](#) policy. Students should submit their request to their Faculty Office normally **within 10 working days** of the beginning of term in which they anticipate a need for accommodation or to the Registrar's Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

COPYRIGHT AND RECORDING

- Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, **including lectures** by University instructors.
- The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording

may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

EXTREME CIRCUMSTANCES

- The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L and/or McMaster email.
